We are having version control issues. There is a regional version with the changes made, and a HQ version that may not have these changes made.

Tim, if you find the version ready for posting, call me and I'll do a read against with you by phone.

I'm ready to delete the line, if that's what you'd like me to do. I'll wait for a final confirmation.

Thanks!

HOLD please.

Sorry folks. Clancy just told me we need to delete the line "Preliminary data shows water pollutants are decreasing." We can't say that at this time.

Also, should R9 start using this EOC version? (Their current version is attached.)
